"UNCLE JOE" COMES BACK WITH A RUSH

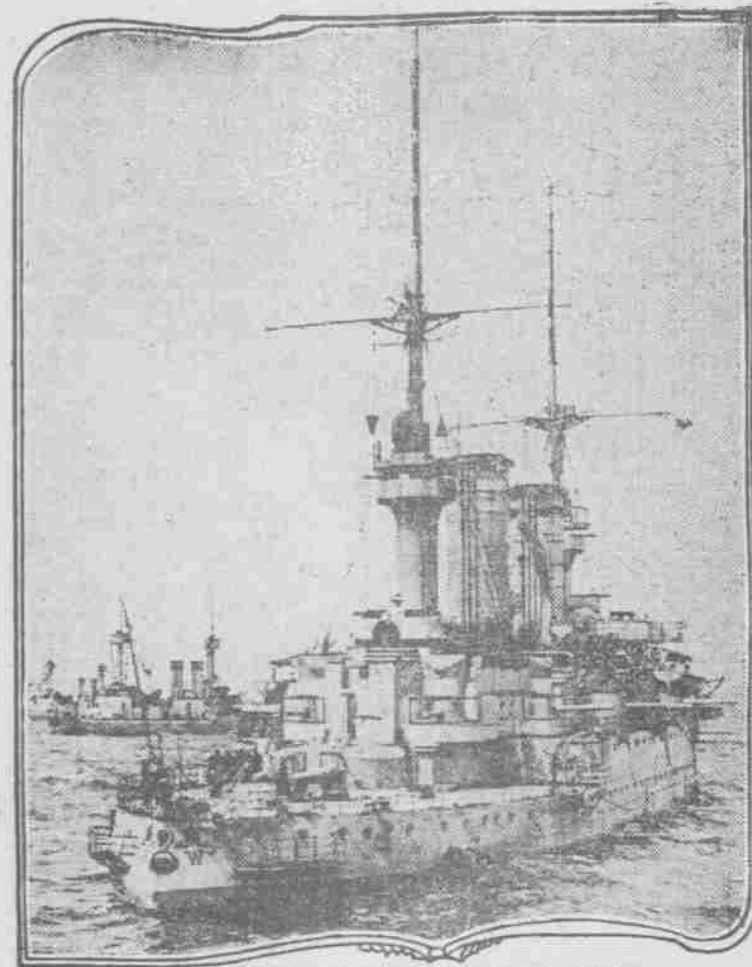

JOSEPH G. CANNON

"Uncle Joe" Cannon, the Republican veteran and former speaker of the house of representatives, has been returned to congress in the recent election in Illinois by a large plurality of votes. It is "Uncle Joe's" 12th term in congress. He was defeated in 1912 when the Republican party was split by Col. Roosevelt thus bringing the Democrats into power. The former speaker is the Gibraltar of standpatism and his moral influence in the house is enormous. He answers the question "Is it possible to come back?" with "Yes!"

England Loses 24 Ships and Germany's Loss Is 26

GERMAN BATTLESHIPS IN THE NORTH SEA

It has been recently announced that eight German warships have steamed out of the North sea with the intention of giving battle to the British Armada which has been impatiently waiting for an opportunity to engage the enemy ever since the war began. Numerically the German fleet is inferior to the English, but many of the British men-of-war are old and their armament is far from being as strong as that of the more modern German dreadnaughts. The German cruisers have harassed their enemy on both oceans and succeeded in sinking several British cruisers and capturing many British merchantmen. So far England admits a loss of 24 ships and Germany of 26.

The Daily Novelette
THOSE SMILES!

THE great detective looked long and penetratingly at the telephone.

"That thing's ringing," he deduced quickly.

The bell had given it away! It was simple when explained, like most of the great detective's apparently miraculous deductions.

"Hello! Hello!" excitedly called a woman's feminine voice on the other end of the wire. "Come around immediately, at once—27 Cemetery Lane. Oh, the blood, the blood! I fear some foul crime! Oh, the blood, the blood!"

With an hysterical shriek, she rang off, and the great detective hurried around as soon as he finished his book. "I'm so nervous about it!" she quavered. "There is apparently no explanation for it, yet I am sure some dreadful murder—oh, all murders are dreadful—has been committed in my room! Oh, the bloody blood!"

The great detective silently, most business-like, traced the marks for five minutes. Finally he looked at her sharply. "Madam," he said, "your nose is bleeding!"

Another one solved!

HORSES ON BOARD SHIP ARE BURNED TO DEATH

Norfolk, Va., Nov. 11.—Virtually all of the 800 horses on board the British steamship Rembrandt were burned to death when the ship took fire off the Virginia capes Monday, according to information reaching here. The Rembrandt was bound from Baltimore to St. Nazaire, France, and the animals are understood to have been intended for the armies of the allies.

It was reported here tonight that Capt. Edlin, of the Rembrandt, had notified officials of the Lamport & Holt line, owners of the ship, he had reason to believe the vessel was fired by German spies who were members of the crew.

The Rembrandt ran 10 miles off Cape Henry Monday night, disposing of the carcasses of the horses.

SWITCHMAN SUES G. H. FOR \$25,000 DAMAGES

C. E. Ryan has filed suit in the special district court against the G. H. & S. A. railroad for \$25,000, alleging personal injuries.

The plaintiff alleges that on August

3 he was riding on a boxcar in the local G. H. yards as a switchman, when he was thrown to the ground and his foot crushed under the flange of a car wheel.

Good Health Is Priceless

Up to the time a man is 40 or 50 years of age he has a great store of health and vigor to draw upon. It never occurs to him that he may be recklessly squandering a bank account which one day he may find, has been checked out to its limit.

At the age of 40 or thereabouts he realizes that health is about the most priceless of his assets. Another problem that confronts him is to discover a means of retaining youth and vigor.

The means of retaining youth and vigor are at your disposal, no matter how young you may be situated. The problem of reduced vigor facing a man from 40 years of age onward is of vital importance. He ought to think about and face the problem directly and know what it means. If he wants a robust, happy and comfortable old age he must conserve his health while he has it to conserve.

Thousands of people in all walks of life have testified that by the use of the gentle tonic-stimulant Duffy's Pure Malt Whiskey they have kept the tissues young and the system in a normal healthy condition. A tablespoonful in equal amounts of water or milk before meals and on retiring, stimulates the mucous surface and little glands of the stomach to healthy action, thereby improving the digestion and assimilation of the food and giving to the body its full proportion of nourishment. With perfect digestion no fermentation will take place and no disease germs can be generated. This is the secret of Duffy's in prolonging health and activity and why you, too, should "Get Duffy's and Keep Well."—Adv.
